

The Jenkins Observer

Produced by Members of the Jenkins Place Senior Center

MAYOR'S MESSAGE

As summer begins to wind down and we approach the end of a year that was filled with positive change in the City, I'm grateful to our many seniors who continue to be engaged at Jenkins Place. Not only have many individuals "taken ownership" of the Center, but they have graciously offered their time and thoughts to enhance programs and activities. I am very appreciative for these efforts because I want to ensure we are creating the best environment for seniors to be healthy, happy and enjoying life.

That is why we continue to undertake new programs and enhance activities in response to seniors' wishes. In September, we will host an eight-session Matter of Balance program to increase understanding of balance, help people stay active and ensure more people can stay healthy longer. Many seniors said this is exactly the kind of programming they want. It includes practical instruction and real "take-aways" that have immediate benefits. We will also be measuring the success of the program through participant surveys. We want to do more of this to gauge how much benefit our programs provide. As always, we invite feedback on this and all programs.

I'm also grateful for the way our seniors look out for one another. After all, that's what community is all about. I want to continue to make sure we do things to strengthen one another all the time. That will remain our focus as we head into fall and beyond!

SAFETY TIP FOR SENIORS: LAUGHTER IS THE BEST MEDICINE

#1 It reduces blood pressure and increases blood flow **#2** Laughter reduces "stress hormone" found in lesser amounts in the bodies of those who laugh and experience happiness. **#3** It can improve memory. When the brain is exposed less to stress it's given the ability to heal itself better and continue to make room for memories. **#4** Laughter promotes physical fitness, laughter engages virtually all of the body's physical systems, including muscles and nerves. **#5** Boosts the immune system; improved wellbeing, better blood flow and increased oxygen intake all contribute to a healthier, stronger immune system. This, in turn helps seniors battle some of the common diseases that might otherwise darken their days. Submitted by Sandy Singleton.

This discussion, presented by Arden Courts, will cover what the normal signs of aging are and how we all may at times exhibit what feels like dementia to us but is really a very normal part of the aging process. Speaker & lunch sponsored by Arden Courts.

CLARENCE'S C O R N E R

"Football is a game where 22 big, strong men run around for two hours while millions who really need the exercise sit and watch."
From Nov/Dec 1998

What is the Senior of the Month?

*"Getting to know you,
getting to know all about you."*

We want to get to know all of our seniors and help them get to know each other. You can volunteer, or suggest a friend. You will be interviewed by Annette and she will write up your story. You can read it before it's posted and make changes. To put a name with a face, we can either take your picture, or use a picture you have. Original pictures will be returned. Everyone who participates will receive a framed picture of the display and be included the a new Senior of the Month scrapbook! If you would like to be featured as a Senior of the Month, please contact Annette Towner, Sunshine Chairperson, or call Rachel O'Malley at Jenkins Place 440-427-2519.
